**Subject:** Our economy depends on the river

Ash Grove Cement Company, we as employees and other businesses have strong concerns that EPA has underestimated both the cost of the project and length of time to complete it. Additionally, I believe EPA is basing these decisions on old data when new, more precise data also is available for consideration.

Not only does Ash Grove operate a facility on the river, but also four (4) of our key customers have operations on the river, and any EPA decision impacts us all.

Please reevaluate this plan.

Sincerely,

(b) (6)
